Cessation Treatment Implementation

- Achieving equity in the reach of smoking cessation services within the NCI Cancer Moonshot-Funded Cancer Center Cessation Initiative. D'Angelo H, Hooper MW, Burris JL, Rolland B, Adsit R, Pauk D, et al. Health Equity. 2021;5(1):424-30. doi: 10.1089/heq.2020.0157.
- Addressing a core gap in cancer care the NCI moonshot program to help oncology patients stop smoking. Croyle RT, Morgan GD, Fiore MC. N Engl J Med. 2019;380(6):512-15. doi: 10.1056/NEJMp1813913.
- Effective cessation treatment for patients with cancer who smoke—the fourth pillar of cancer. Fiore MC, D'Angelo H, Baker TB. JAMA Netw Open. 2019;2(9):e1912264.

Cessation Treatment Evaluation

- Reach and effectiveness of the NCI Cancer Moonshot-Funded Cancer Center Cessation Initiative.
 D'Angelo H, Pauk, S, Rolland B, Adsit R, Pauk D, Fiore MC, Baker TB. Transl Behav Med.
 2022;ibac009. doi: 10.1093/tbm/ibac009.
- Assessing electronic nicotine delivery systems use at NCI-designated cancer centers in the Cancer Moonshot-funded Cancer Center Cessation Initiative. D'Angelo H, Land SR, Grana Mayne R. Cancer Prev Res (Phila). 2021;14(8):763-6. doi: 10.1158/1940-6207.CAPR-21-0105.
- Mixed-methods economic evaluation of the implementation of tobacco treatment programs in National Cancer Institute-designated cancer centers. Salloum RG, D'Angelo H, Theis RP, Rolland B, Hohl S, Pauk D, et al. Implement Sci Commun. 2021;2(1):41. doi: 10.1186/s43058-021-00144-7.
- Pragmatic application of the RE-AIM framework to evaluate the implementation of tobacco cessation programs within NCI-designated cancer centers. D'Angelo H, Ramsey AT, Rolland B, Chen L, Bernstein SL, Fucito LM, et al. Front Public Health. 2020;8:221. doi: 10.3389/fpubh.2020.00221.

Addressing Topics in Smoking Cessation Treatment

- The Cancer Center Cessation Initiative working groups: improving oncology care and outcomes by including tobacco treatment. Cancer Center Cessation Initiative Coordinating Center and Expert Advisory Panel. J Natl Compr Canc Netw. 2021;19(Suppl_1):S1-S3. doi: 10.6004/jnccn.2021.7095.
- Tobacco treatment program implementation at NCI cancer centers: progress of the NCI Cancer Moonshot-funded Cancer Center Cessation Initiative. D'Angelo H, Rolland B, Adsit R, Baker TB, Rosenblum M, Pauk D, et al. Cancer Prev Res (Phila). 2019;12(11):735-40. doi: 10.1158/1940-6207.CAPR-19-0182.

Journal of the National Comprehensive Cancer Network Special Issue on C3I Working Group Discussions

• The C3I Working Groups center around five areas: (1) diversity, equity, and inclusion; (2) family and social support systems; (3) implementation science; (4) sustainability; and (5) telehealth. Since the launch of the Working Groups, each group has met monthly to discuss the relevance of their focus on smoking cessation for patients with cancer who smoke, how C3I sites are addressing each area of focus, and a relevant research and practice agenda. The results of these Working Group meetings and discussions are presented in this special issue. Available from: https://jinccn.org/view/journals/jnccn/19/Suppl 1/jnccn.19.issue-Suppl 1.xml

International Journal of Environmental Research and Public Health Special Issue on Tobacco Use and Treatment among Cancer Survivors

- Published in 2020, the special issue highlights advances in tobacco use assessment, counselling, pharmacotherapy, population-based approaches to treatment, guidelines for cancer care, impacts of comorbid mental health on cessation outcomes, quality improvement, and improved methods of cessation.
